Task 380 Description

Find and Categorize Spaceport Related Emergence Incidents. Created a Data Base

2020-2021.

- Create: Spaceport Emergence Database and add to the U.S. Spaceports Online Reference Guide
 - Category 13
- Ongoing updates and maintenance of access to the U.S. Spaceports Online Reference Guide
 - https://nmsu.contentdm.oclc.org/digital/collection/NMSGCBOK
- Spaceport Incidents and Events

Methodology

Created a New: Category 13. Spaceport Emergence Database Interviewed: 20 current and past U.S Spaceport CEOs and Executives. 450 pages of transcripts added.

Tracked Down: 300+ cited documents and added to the data base.

11 Database Topics

Legitimization; Finance; Governance; Market Creation; Workforce; Science and Technology R&D; Tech Development and Functions; Tech Standards, Innovation Network and Resource Channels; Spaceport Germination.

Category 13 Overview

- The database is in Category 13 of the U.S. Spaceports Online Reference Guide
- Category 13 also has a document labeled "Instructions For the Spaceport Emergence Database"
- Category 13 contains incidents and events pertaining to the emergence of licensed spaceports in the U.S.
- All incidents are from interviews and documents provided by spaceport executives, research, and news articles
 - All incidents are cited
 - Audio recordings and transcripts are retained by NMSU
